INTRODUCTORY.

EDWARDS' NEW CITY DIRECTORY OFFICE,
No. 73 Dearborn Street, June 30, 1866.

In presenting this, our first CHICAGO CITY DIRECTORY, the publishers desire to tender their grateful acknowledgments, for the courtesies extended to their agents in collecting the necessary information for the book, as well as for the *material aid* which has been afforded by the business men; and earnestly hope that this volume will meet with their expectations and approval, and prove a reliable index to the greatly increased business interests of the Metropolis of the great North-West.

The business of Directory compiling and publishing is at best an arduous one. Hardly any one not conversant with its complicated work can form anything like an adequate idea of the labor connected with it, and the amount of *care and system* required in its compilation, differing as it does from almost every other class of bookmaking, and cannot be lightened by any previous volume, reference to which only tends to confuse and lead to error; to be done aright the work has to be commenced each time anew. It allows no scope for the play of the imagination, being a plain exponent of facts wherein every person represented becomes an interested critic, its every error however slight, is immediately detected, and judgment passed upon it; it will be strange indeed if the present volume should prove an exception to the rule.

Heretofore from four to six months have been consumed in publishing the Chicago City Directory. A Directory—unlike wine, does not improve by age or long keeping; the present volume is an exception to this antiquated custom and is commensurate with the giant strides of our great City. The canvass was commenced on the 2d day of May and the work completed on the 30th of June—less than SIXTY days consumed by canvassing, compiling, printing and binding a Directory of over *one thousand pages*; a corps of over seventy employees were constantly at work from its commencement to its completion, in no city (save New York) in the United States has this feat ever *before* been accomplished, it shows that *some things can be done*, the assertion of antiquated and venerable minds to the contrary notwithstanding—and another year will place us in the vanguard of Directory Publishers.

Our Advertising Department of the Directory is a feature worthy of note to the enterprising business man; it there reflects the *go-a-head-itive-ness* of our merchants, the desire to make known the commodities they have for sale; these men may readily be distinguished from their opposite neighbors by the prominence of their signs in the work.

The publishers respectfully announce their determination to issue *annually* on or about the 1st of July their CHICAGO CITY DIRECTORY, and pledge their past experience as a guarantee for their future.

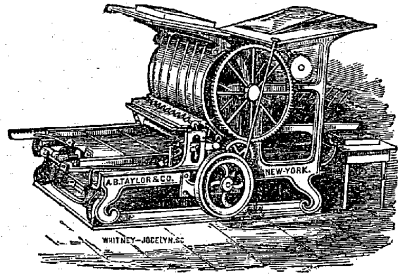

An extensive office has been fitted with everything necessary to successfully compile, print and bind the work, where a complete *file* of Directories is kept for the accommodation and reference of the public. Believing we have a liberal public in our favor,

We are Respectfully,

EDWARDS, GREENOUGH & DEVED.

PUBLISHERS.

TAX PAYERS' ADVISER.

NATIONAL

TAX LAW.

The following important provisions of the new Internal Revenue Law are published for the information of our readers:

Every person, whether liable to taxation or not, must report, and it will be no excuse that they did not receive any notice. Assessments will be made on failure to report, and payments will be enforced as on judgments by default against all who fail to report on or before the first Monday in May of each year.

The penalties are twenty-five per cent. additional for all failure to report, and one hundred per cent. for false return; \$1,000 fine and one year's imprisonment for false return or failure to obey assessor's summons (sec. 14 and 15), for doing business without license, \$500 fine and two years' imprisonment (sec. 73), for failure to report, forfeiture of goods, etc.

INCOME TAX.

Incomes must be given in detail, as per schedule, which is not open to public inspection, and must be sworn to, and are subject to two rates of tax, 5 per cent. on all incomes over \$600, and not exceeding \$10,000, 10 per cent. on excess over \$10,000. Thus on \$10,000 net income the tax is \$720; on \$20,000, \$1,720. Income from U. S. Securities and all other sources, and from any part of the world, of all persons residing here, whether citizens or not, and all citizens residing abroad, all profits from business, rent, net profit from real estate purchased within the year, stocks or other property, interest accrued if collectable, and all shares of gains in companies, etc., whether divided or not, etc., are all alike taxable. Income in gold must be reported in currency value. The income is for the year 1864 from January 1st, to December 31st, and no losses since January 1st, 1865, must in any way be deducted from the income of 1864.

THE LEGAL DEDUCTIONS FROM INCOMES.

The deductions from the income are \$600, but allowed only one in any family of parents and minor children. Amounts of tax legally withheld from dividends, etc., all national, State, county, and municipal taxes actually paid within the year; salaries over \$600 in the U. S. service, on which the tax was withheld; rent of residence actually paid within the year; interest paid on any actual incumbrance on property yielding income, expenses of ordinary repair not exceeding the average of five years, and not including improvements or betterments, such as

water rents, sewer assessments, or incumbrances on unproductive property held for increase of value. Consuls of foreign governments, not United States citizens, are exempt from tax on income from property in their own country, and from official emoluments, if their government give such exemption to our Consuls; but the carriages, plate, and income from property or business in this country are taxable. The governments giving such exemptions to our Consuls are understood to be those of [the different governments who give similar privileges to our consuls are here named] consuls of all other countries are liable to tax on their entire income from property at home or here, and from their official emoluments.

LICENSES.

Pedlars will state whether he travels on foot or with horses, giving the number (goods forfeited if without licenses), what he sells; jewelry or original packages of goods; pedlars must state their age, and if between 20 and 45, state where they are enrolled, or if exempted. Hotel and innkeepers state their rentals or the Assessor must estimate it (likely pretty high). Bankers state the amount of their capital. Dealers; pawnbrokers, cattlebrokers, producebrokers, auctioneers, photographers, butchers, builders, and contractors will state their estimated sales and contracts. Wholesale dealers the amount of their last year's sales. Assayers the estimated value of metals to be assayed; substitute brokers must report the number of substitutes procured and pay \$10 per head and \$100 license. All licenses given from May 1st, 1865, or the time business commences, to May 1st, 1866. All persons, except lawyers, physicians, surgeons, dentists, cattle brokers, horse dealers, auctioneers and pedlars, must transact their business or profession only at the places designated in the license, but persons moving or selling can transfer their license on application to the Assessor. For all persons, except lawyers, conveyancers, claim agents, patent agents, physicians, surgeons, dentists, cattle brokers, horse dealers and pedlars, one license will do for the firm. Every business requires a separate license, but bankers may act as brokers, horse dealers as livery stable keepers, lawyers as conveyancers and claim agents, hotel keepers, wholesale and retail dealers, innkeepers, and eating-house keepers as tobacconists; wholesale and retail dealers and eating-house keepers as confectioners; wholesale and

retail dealers as apothecaries, and butchers as retail dealers; distillers must give bonds.

Manufacturers of segars will hereafter be required to give a bond to comply with the law, and lottery dealers must give a bond to have their tickets stamped. After this date the general rate of tax on manufactures will be 6 instead of 5 per cent. Legacies and successions to real estate should be reported as they occur to the assessor. Manufacturers, auctioners, brokers, slaughterers of cattle, railroad, steamboat, express

and ferry boats, insurance, telegraph companies, and banks and managers or owners of theatres, operas, lotteries and advertisements, must make monthly and quarterly returns. Parents, guardians, trustees, executors, etc., of minors under their care (if they fail to report themselves). All returns must be sworn to, and names and residence given in full. Those proposing to change their residences during the year, will so state, with the place (if known) to which they will remove.

AT THE FAIRS OF THE

American Institute, Franklin Institute, Maryland Institute, Mass. Mechanics' Association, Penn. Mechanics' Institute, St. Louis Agricultural and Mechanics' Association,

And at numerous Institutes and County Fairs, including all the Fairs at which they were exhibited the past three years. First Prizes have also been awarded these Machines at the exhibitions of

LONDON, PARIS, DUBLIN, LINZ, BESANCON, BAYONNE, ST. DIZIER, CHALONS,

And they have been furnished, by special command, to the

Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

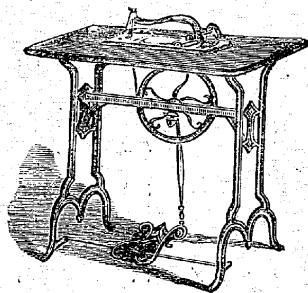

The GROVER & BAKER ELASTIC-STITCH SEWING MACHINES are superior to all others for the following reasons:

1. They sew direct from the spools, and require no rewinding of thread.
2. They are more easily understood and used, and less liable to derangement than other machines.
3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.
4. The stitch made by these machines is much more firm; elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.
6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor ravel, but remains firm and durable.
7. Unlike other machines, these fasten both ends of the seam by their own operation.
8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.
9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practised, execute the most beautiful and permanent embroidery and ornamental work.
