WILES, GREENE & BITNER,

Patent Law and Patent Soliciting,

226 LA SALLE STREET, CHICAGO, ILL. **Telephone Main-5077.** PACIFIC BUILDING, WASHINGTON, D. C.

When an inventor has paid us for examining the Patent Office records to determine the patentability of his invention and we report that we consider it patentable, we prepare and prosecute his application for our usual fees, and, in case we fail to obtain a patent, we return the whole amount paid except the fee for the search.

To Whom it may Concern:
Wiles, Greene & Bitner, Attorneys and Solicitors of Patents, of Chicago, Ill., and Washington, D. C., are well known by me to be men of standing and character, both personally and professionally.
Any business intrusted to their care will receive prompt attention.

A. REED & SONS PIANOS.

The REED & SONS' Pianos being made upon the latest approved methods of Piano construction; also under Patents granted by the Governments of the UNITED STATES, ENGLAND, GERMANY and FRANCE; also of the best material and quality of workmanship, we make the claim based upon an experience of fifty years in the Piano Trade, that the REED & SONS' Pianos are the equal of the most celebrated instruments made in this country. They "sound their own praises."

Prices Reasonable. Time Payments. Old instruments taken in exchange.

GREELEY-CARLSON COMPANY'S

NEW ATLAS OF CHICAGO.

The first volume will include the portion between Chicago Avenue and Twenty-second Street, Halsted Street and Lake Michigan; and it will contain about forty plates, each showing the east half or west half of a quarter section, on a scale of one hundred feet to one inch.

Each quarter section will be surveyed, and the measured length of each side noted thereon, so that the surplus above the United States dimension may be seen.

All sub-divisions will be shown, with the recorded dimensions of all lots, blocks, streets, alleys, boulevards, etc. The position of right of way of all railroads will be given in accordance with deed or act of condemnation.

A separate map will show the public land survey by the United States in 1828, with the meander lines of the lake and river, and the accretion or erosion since that date.

The plats of all sub-divisions made before the destruction of the Archives of Cook County by the great fire of October, 1871, are copied from the collection of tracings from the recorded maps of 1863, by Wm. P. Davie, now in possession of Messrs. Handy & Co., and from the manuscript Atlases made by the same hand, now owned by Messrs Ogden, Sheldon & Co. and by Messrs Rees, Pierce & Co., which these gentlemen have kindly placed at our disposal. Much important matter has been obtained from original plats, deeds and abstracts, furnished us by private owners.

Full marginal notes will accompany each plate, giving the description of each sub-division taken from the deed of the owner or from the certificate of the surveyor.

Will also show all BUILDINGS, their MATERIAL, number of STORIES, SEWERS, WATER PIPES, FIRE PLUGS STREET NUMBERS, STREET GRADES, Etc.

Vol. II. JUST ISSUED. The Second volume will include the portion between Twenty-second street and Thirty-ninth street, Ashland Avenue and Lake Michigan.

William Sooy Haythorn,

CONTRACTOR,

Steam Heating and Ventilating Apparatus.

MANUFACTURER

Haythorn's Automatic Return Valve,

For Radiators, Box Coils and Circulators.

This Valve needs no packing nor any attention.

The object of this Valve is to do away with the packing of valve stems, and to prevent the freezing and bursting of the pipes. It requires no attention from either the engineer or janitor.

When the supply valve is open on the radiator, the ball drops down into the disc and discharges the water into the return pipe, and through the day, when the supply valve is shut, the back pressure from the return pipe causes the ball to rise, thus keeping the water out of the radiator. At night, when the engineer closes his valve on the boiler, the ball then drops, and all the water drains out of the radiator, thus preventing the pipes from freezing.

This Valve, being automatic, requires no attention whatever, and when once put on will last for ten years without repairs.

Haythorn's Patent Strainer for Steam Traps, Water Elevators, Etc.

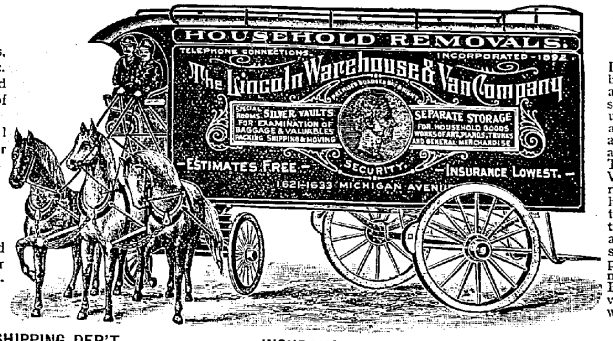
Household, Art Goods, Wedding Presents, &c. stored in separate solid partitioned, dust proof rooms, lock ank key.

Trunks and Small Packages, 25 cents per month each,

CARPET DEP'T.

Carpets cleaned, altered matched and relaid or stored under guarantee.



VAN & REMOVAL DEP'T.

Household Goods can be shipped to us from any point. We will store them or "set them up" in your new home, attending to all details, and guarantee you against loss or damage. The enclosed padded Van service is always ready. The only three-horse Vans, upholstered inside and entirely enclosed. Every appurtenance for the safe, efficient and prompt removal of Furniture, Mirrors, Pianos Bric-a-Brac. This service has no equal in the world.

PACKING AND SHIPPING DEP'T.

Household and Personal Effects of every description packed by experienced, competent and trustworthy men, in the most thorough and complete manner stored or shipped to any point. All employes are under bond.

TELEPHONE, "SOUTH"-478.

INSURANCE.

All Goods stored with us may be insured at your own valuation at the lowest rates, for the reason that our warehouses are connected by electrical attachments with burglar alarms, telephone, fire and police wires at the district station. Watchmen are on duty day and night, time clocks registering their movements; all employes give bonds. No money, time or attention is spared in guarding goods. Our warehouses are the largest, lightest, best ventilated, complete and most thoroughly arranged storage warehouses in Chicago.

FURS, RUGS AND DRAPERY DEP'T.

Furs, Rugs, Curtains, Draperies cleaned, stored and insured against loss by moth and fire. We hang the Draperies and Rugs on Poles in this cedar lined compartment, thus preventing crease marks from folding. A nominal charge of 2½ per cent on valuation for the season.

ESTIMATES FREE.
