S. P. SANBORN, Agent American Newspaper Union:
 DEAR SIR: I deem the local Weekly Journals printed on the Co-operative Plan, valuable advertising mediums for Manufacturers, Merchants, and all who desire either to draw the attention of Dealers or Consumers to their goods. The custom of printing one side of these papers at one place, enables the advertiser to reach a large number of readers at a very small outlay.

Yours very truly,

S. D. KIMBARK.

TO OUR PATRONS.

We have pleasure in presenting the Second Volume of the LAKESIDE ANNUAL DIRECTORY, confident that it will prove even more correct and satisfactory than its predecessor.

The most noteworthy feature of the past year, from a directory standpoint, was the exceptional number of changed locations, particularly in the residence districts.

Several causes combined to produce this result, the chief being the erection of a very large number of desirable new buildings, generally provided with "modern improvements," and therefore very tempting to persons not fully satisfied with their old surroundings.

No little annoyance has been caused by recent changes in the house-numbers of several districts. The reform appears to have been in progress for some time, and prosecuted spasmodically, with little regard to "completing one thing before beginning another." Hence, in many instances while one portion of a street has new numbers, the other retains the old. Again, in other cases, the new numbers have been placed since the canvass was completed. All this occasions confusion, and duplication of numbers, which might have been avoided by a more energetic prosecution of the work. We have taken the utmost pains to secure correctness, and comparatively few errors will be found.

The steady yearly increase in size of our Directory, compels us to adopt a more condensed style of giving names and addresses, restricting each individual to one line of space, whenever practicable. We have also rigidly excluded the large class forming what is known as "the floating population," *i.e.*, persons holding a residence of only a few weeks or months duration. The opening of navigation, and activity of various interests depending upon it, draws hither a very considerable immigration, which remains only during the summer months, and is subject to daily changes during its temporary stay. Hence the classification of an element so variable and transitory, would be of but little value at the time of publishing, and almost useless a month later. It has been customary in Western cities

to include these names, but as they evidently serve no useful purpose we shall continue to omit them.

At the commencement of our canvass we urged business men to bear in mind the importance of giving personal attention to insuring the correctness of their record, when our agents called. The request was very generally complied with, and we trust, in cases where disregarded and errors have crept in, that they will serve as reminders for the future. Perfection is impossible in a work of such magnitude, necessarily intrusted to a very large number of employees, and prosecuted day and night at the utmost speed. Yet so carefully and conscientiously has the labor been performed that where mistakes have unfortunately been made they are almost invariably the result of omission or inaccuracy on the part of those giving the information. We particularly request that when errors are discovered the corrections be sent us promptly by mail, and we will rectify them in our "Business Directory" to be issued January 1, 1876.

And in cases of changes in firm names, locations, new arrivals, etc., occurring after this date, parties interested will find it advantageous to promptly inform us. We shall keep at our office, for the convenience of our subscribers, a Corrected Reference Directory, in which all new names, changes, corrections, etc., will be entered daily. We also have on file copies of the Directories of all important cities and towns, which our subscribers are invited to consult at their pleasure.

Through the courtesy of Henry H. Hurlbut, Esq., we are enabled to present a reprint, and as nearly as possible, *fac simile*, of the first Chicago Directory, issued in 1839. It has never before been reprinted, though a later issue was several years ago incorrectly reproduced, as the first.

We shall hereafter omit from the General Directory, as having no legitimate place therein, the usual review and comparative exhibit of our mercantile, manufacturing and commercial interests. A very full and correct review will be incorporated in our Business Directory, where it properly belongs.

The statistics of our population, however, should rightfully appear in the General Directory, and is therefore appended.

St. Louis claims 113,870 names, but our count shows only 105,701.

Cincinnati claims 105,000, but our count shows 106,677.

These figures are the result of a careful count of the books compared.

Very respectfully,
DONNELLEY, LOYD & CO.
