Portrait Painting in Oil Colors.

A SPECIALTY.

*Satisfactory Likenesses painted from life or from Photo-
graphs, Ambrotypes, Tintypes, or old Daguer-
reotypes. True copies guaranteed.*

Portrait Painting is the most difficult branch of the fine arts. Truth in outlines—accuracy in forms—these are essential in faithful portraiture. The least deviation in the preliminary sketch renders the work utterly worthless, even if it be afterward well handled and beautifully colored.

Therefore, to be secure against errors of this nature, I accept as a "modern improvement," the advantages of Photography, and the uses of the negative in making the sketch, which secures a MORE PERFECT OUTLINE OF THE HEAD than can be drawn from life by the most experienced artist. A portrait, thus drawn and finished by sittings from life, will, without doubt, be a true likeness of the subject; and I assure my patrons that they will agree with me on this point after they shall have seen their orders completed. Many artists fail in the details of drawing as well as in coloring; and it is for this reason that so many bad pictures are seen suspended in the parlors of those who have attempted to obtain correct portraits of the loved ones at home. One is pained to see the caricatures for which they have paid a fair price, when their places might be filled by pictures that would be not only true likenesses of those whom they represent, but also beautiful specimens of art in color and finish.

Residents of the city and visitors from abroad are invited to call and examine my work.

Persons at a distance can have their orders filled by sending small picture with sample of hair and dress, and other instructions to me, addressed as above.

THE PACIFIC BOILER WORKS.

The Baragwanath Patent

STEAM-JACKET FEED-WATER HEATER AND PURIFIER,

For Boiling and Purifying Feed Water by

EXHAUST STEAM.

The only apparatus that PURIFIES and DELIVERS its water into the boiler at a temperature of 216° Fah. and upwards, and effects a

Saving of from 15 to 40 per cent of Fuel.

It saves Boiler Repairs, and materially increases the steam-generating capacity of the BOILERS, and gives a UNIFORM POWER; and it is an indispensable apparatus wherever Steam Power is used.

BARAGWANATH & PIM,

ALLIGATOR BOOTS

ALLIGATOR BOOTS AND SHOES.

I herewith call your special attention to my different styles of Alligator Boots and Shoes, which I have no hesitancy in saying are superior in every manner to the best English Grain Leather for fall or winter wear. This leather is absolutely water-proof, therefore never becomes hard and stiff, making it unpleasant to the wearer.

RIDING BOOTS.

NAPOLEON BOOTS.

ENGLISH GRAIN LEATHER,
With Cork Bottom.

ALLIGATOR CORK SOLE.

BLACKING.

I keep on hand, at all times, DAY & MARTIN'S IMPORTED ENGLISH BLACKING, really the finest article in the market for nourishing and preserving the leather. It will not soil the clothes, and is free from any disagreeable smell. Price, 35 cts. per Bottle. I also keep the following well known brands: Acme, Frank Miller's Army and Navy, and French Blacking, at the usual prices.

I next call your attention to the SPIRAL SPRING SPATTER-DASH, for gentlemen's use, an article of undoubted merit, and eminently useful for the coming winter and spring. This is a leather legging, with a spiral spring at both the top and bottom, and, consequently, is self-fitting. It is eminently superior to the old-fashioned legging, as it will conform to any size calf, be it large or small.

JIMMY BUTTON-HOOK.

The most practical Button-Hook ever invented.

BUTTON GAITER.

RUBBER SOLES.

These can be applied to all boots and shoes at a very moderate cost, and are very serviceable. They obviate the wearing of overshoes at almost all seasons of the year, and do not impair the looks of boots and shoes when once on, as they are not at all conspicuous. Those desirous of warm, dry feet, should try them once, and be convinced of their merits.

Boots and Shoes—continued.
