Andrews' Celebrated Folding Beds

The Only Perfect Folding Beds!

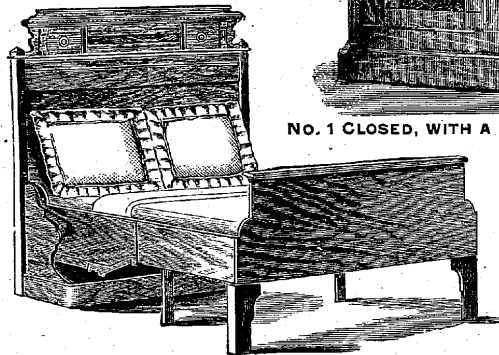

Made in Thirty Styles, Price, \$20 up.

Occupy one-fourth the space of the clumsy common beds, hence save room-rent! All the bedding, pillows and mattress fold out of sight instantly. The improved woven wire mattress goes with each bed, insuring comfort.

Made in form of Book-Cases, Dressing-Cases, Secretaries, etc. Parties interested are invited to call and see these beds at our ware rooms.

NO. 1 CLOSED, WITH A WRITING-DESK ATTACHMENT.

NO. 1 STYLE, OPEN.

Most Elegant,
Comfortable
Substantial.

The ANDREWS BEDS have the most perfect ventilation of any bed ever made. They have a new suspension steel wire spring mattress, self-adjusting, far superior to anything before made. They are on casters, and easily roll from one room to another. The main points of excellence in these beds none other have nor can have.

When moving, or in case of fire, bed and bedding can be instantly rolled out of the room.

FOLDING BEDS are now an absolute necessity, especially in town, where rents are so high that the beds often pay for themselves in *two months*. Few, therefore, can afford to be without them, as two rooms are made from one by their use.

The ladies say of the Andrews Beds: "They are by far the best." "I could not keep house without them." "They are the best made beds in the market, while several other kinds are rickety."

FRUIT, VEGETABLES, MEAT AND OYSTERS.

SMOOTHEST AND BEST. QUALITY GUARANTEED. **NORTON BROS., Chicago.**
PACIFIC CAN CO. San Francisco

Capacity of Maywood Factory 100,000 Cans Daily.

Made by Norton's Patent Automatic System of Machines, which, taking the sheets of tin as they come from the box, pass them through successive stages of the work until they roll out finished cans, tested and ready for the packer.

The cans thus produced are smoother, stronger and more uniform in quality than those made by any other method.

QUALITY FULLY GUARANTEED.

in adjoining column showing the sizes of the different bodies, and their proportion to each other by twelfths of Pica, the present Pica being the standard.

Each size is a factor. Three Nonpareils (6) are a Great Primer (18); Three Breviers (8) are a Double Pica (24); a Nonpareil (6) and a Brevier (8) are an English (14) or Two-Line Minton; a Pica (12) and an Excelsior (4)—two six-to-Pica leads—are a Columbian (16); a Double English (28) and a Brevier (8) are a Double Great Primer (36); so with all of the other sizes, making the combination of two or more sizes of type in a word, or line, the simplest thing imaginable in composition. That odd body, Bourgeois (9), is now a respectable size, being a Nonpareil (6) and one-half exactly.

Look over the figures and test the simplicity of the new system of Type bodies.
