THE ROSEHILL LITIGATION.

A Thirty Years' Muddle of Accounts Skillfully Straightened Up.

A COMPLICATED LITIGATION between the stockholders and scripholders of the ROSEHILL CEMETERY COMPANY has been long pending, requiring the examination of intricate accounts and the exercise of expert bookkeeping knowledge and skill of a high order.

The suit is brought by K. V. R. Lansingh, administrator of the Rev. John Dempster, and certain intervening petitioners, including S. A. Keen, the banker; Judge Horton, as trustee; S. H. Sweet and Wesley Dempster, as complainants, against Judge Van H. Higgins, the Rosehill Cemetery Company, Judge H. W. Blodgett, as trustee, and the National Life Insurance Company, as defendants.

The scripholders who sue claim the right to redeem common stock of the company, pledged in Judge Blodgett's hands since 1859, to secure the bonded debts.

The complainants are represented by Osborn Bros. & Burgett, and the defendants by Judge Higgins and E. D. Cook of Beam & Cooke.

The scripholders seek to redeem the stock, so that it may be issued to them, and Judge Tuley entered a decree establishing the right of the petitioners to an accounting.

Alexander F. Greig, a skillful, professional accountant, has been engaged on the difficult and intricate task of unraveling and stating in a lucid manner the transactions involved. He has performed his task in a way which shows him to be a master of his profession. The written exhibits he has laid before Master in Chancery I. K. Boyesen are models of the bookkeeping and accounting art.

The subject is divided off to conform to the directions in the decree. On one basis the bonded debts appear to be paid, with a surplus payment thereon of some \$52,000. On the basis of allowing the settlement with the bondholders in 1870 to stand as valid, as decreed, the same account shows some \$70,000 due them. The preferred stock is shown to have been fully paid before its issue and that dividends have been paid upon it. The receipts since 1878, shown by itemized accounts recapitulated under proper heads, foot up \$904,000. The debt due Judge Higgins aside from the bonded debt, and for which he holds notes, is \$375,000.

The accounting covers such a long period of time and involves so many difficult questions both of law and bookkeeping as to be almost without parallel in the courts. The controversy, however, does not affect the lot-owners in the cemetery, which is in a flourishing condition. After the master renders his report upon Mr. Greig's showing of the accounts the case will again come before Judge Tuley and probably go to the Supreme Court.

GREELEY-CARLSON COMPANY'S

NEW ATLAS OF CHICAGO.

The first volume will include the portion between Chicago Avenue and Twenty-second Street, Halsted Street and Lake Michigan; and it will contain about forty plates, each showing the east half or west half of a quarter section, on a scale of one hundred feet to one inch.

Each quarter section will be surveyed, and the measured length of each side noted thereon, so that the surplus above the United States dimension may be seen.

All sub-divisions will be shown, with the recorded dimensions of all lots, blocks, streets, alleys, boulevards, etc. The position of right of way of all railroads will be given in accordance with deed or act of condemnation.

A separate map will show the public land survey by the United States in 1828, with the meander lines of the lake and river, and the accretion or erosion since that date.

The plats of all sub-divisions made before the destruction of the Archives of Cook County by the great fire of October, 1871, are copied from the collection of tracings from the recorded maps of 1863, by Wm. P. Davie, now in possession of Messrs. Handy & Co., and from the manuscript Atlases made by the same hand, now owned by Messrs. Ogden, Sheldon & Co. and by Messrs. Rees, Pierce & Co., which these gentlemen have kindly placed at our disposal. Much important matter has been obtained from original plats, deeds and abstracts, furnished us by private owners.

Full marginal notes will accompany each plate, giving the description of each sub-division taken from the deed of the owner or from the certificate of the surveyor.

Will also show all BUILDINGS, their MATERIAL, number of STORIES, SEWERS, WATER PIPES, FIRE PLUGS STREET NUMBERS, STREET GRADES, Etc.

Vol. II. JUST ISSUED. The Second volume will include the portion between Twenty-second street and Thirty-ninth street, Ashland Avenue and Lake Michigan.

CHRIS ABELE,

537 West 50th Street, - NEW YORK.

Abele's Patent Portable Burr Stone Mills,

Absolutely Fire Proof Bottom Runners.

This Mill is built in a very strong and substantial manner, does more work and costs less for repairs than any other mill ever built.

"Knickerbocker" Coffee Roaster.

I claim that this Roaster as now manufactured with all its latest improvements is the very best Roaster now in the market; it turns out its coffee fresh and lustrous in appearance, free from any adherent smut or smoke, a fact found out once by placing it side to side with any other. This Roaster is also adapted for Chicory, Cocoa, Etc.

Constructor and Contractor for complete Plants for Spice, Coffee, Chicory, Cocoa, Chemicals, Plaster, Slate, Paint, Cement, Malt, Drugs, Bolting and Sifting Machinery, Elevators and Conveyors, Shafting, Hangers and Pulleys, Gearing, &c. Special and original machinery for grinding and pulverizing put up at short notice. Works laid out and reconstructed. Orders by mail promptly attended to.

THE HARTMAN DETECTIVE AGENCY 128 S. Clark St., Room 8, CHICAGO, ILL.

Will return Fugitives from Justice. Assist Attorneys and attend to General Detective Business. Matrimonial Difficulties a Specialty. Experienced Detectives sent any section of the Country. Business Strictly Confidential.

DEAR SIR:—Is there any one who at some period of his or her life has not felt the need of a detective of discretion and skill to whom he or she could intrust certain investigations, mysterious and delicate in their way? Fathers who need to know the acts of their prodigal sons? Families jealous of knowing the habits of any one of their members? All those in fact who desire to exercise moral supervision and justifiable investigation may address themselves with entire confidence to one whose ability is universally conceded, and whose honor is above suspicion. This agency employs none but experienced detectives. Secrecy, fidelity and accuracy guaranteed. City and World's Fair Guides. GEO. A. HARTMAN, Gen. Mgr.

DETECTIVE AGENCY.

"One of the most successful agencies in the world for the prevention of crime is the Mooney & Boland agency. In 1874 they saved millions of dollars to the United States government by their detection and arrest of the parties engaged in the so-called Lawrence silk smuggling frauds, the perpetrators of which were composed of the principal members of the old blockade running ring, which caused so much trouble during our late war,

In 1881 they saved the Bank of France from having the civilized world flooded with counterfeit 1,000 franc notes, so skillfully executed that they would have passed current anywhere, by their seizure of the counterfeit notes and plates and the arrest and conviction of Charles Becker, the noted forger and counterfeiter, and his accomplices.

In the same year the government of Italy employed them to locate the famous brigand, Esposito, whose arrest and extradition they accomplished, and which practically put an end to brigandage in Italy. Their services in the Cook county boodle cases were fully recognized by the press and the state's attorney. Reference is made to the above cases because they were of great public interest at the time they occurred. The rule of the agency, however, is to treat all matters intrusted to it, either by lawyers, corporations or individuals, with the same confidence that governs the legal profession.

The Mooney & Boland agency was established in 1870 and incorporated in 1890. Their offices in Chicago are at 151 Monroe St., Telephone Main-1340, and in New York at 132 Broadway. Their terms are as moderate as is consistent with proper service.

Mr. W. J. Sutherland, general manager in charge of the western division, and Mr. Robert Ferns, general manager of the eastern division, with headquarters at Chicago and New York, respectively, are notable examples of men who have fitted themselves by their long experience for the responsible positions which they now occupy, and have earned and deserve the confidence and respect of the communities in which they have been identified with the agency for so many years."—*Extract from the Chicago Mail, June 17, 1892.*

"GRIP" is the result of much study and experimenting, and having cleared out places where all other articles had failed, distinguishes it as

The Only Reliable Exterminator on Earth.
"GRIP" is perfectly safe to use anywhere as there is Positively No Odor from the Dead Rats and Mice. Price 20 cents.

At all Druggists.

The pest will eat "GRIP" in preference to anything else.

"NO TRAPS for me," says the rat, so the folks tried common Rat Poison or Paste. The rat ate it, ran under the house and died. Alas! so did all who smelt him.
MORAL: Use nothing but "GRIP" and the dead rats and mice will emit no odor. Completely exterminates Rats, Mice, Ants and Roaches. Price 20 cents at all Druggists, or prepaid by Noble Mfg. Co., Englewood, Ill.

For Hotels, Restaurants, Meat-markets, Etc.

"GRIP" is sold in bulk at 60c. per pound by the manufacturers.

No pay until you are satisfied. Address:

NOBLE MFG. CO.,
ENGLEWOOD, ILL.
